

PROJECT SEPARATION

A NEW LAND. A NEW BEGINNING.

Petition summary and Background

Action petitioned for

We want our people who are descendants of slaves and who desire to live a righteous life to be allowed to establish a separate state or territory of their own-either on this continent or elsewhere. Our Former Slave masters and their children are obligated to provide that land which should be minerally rich and fertile. We believe they are obligated to maintain and supply our needs in this separate territory for 20-25 years until we are able to meet our own needs. We receive no peace, after giving the best of us for 400 years and receiving in return some of the worst treatment ever recorded by any people. Our contributions to this land and suffering at the hands of white America, justifies a complete separation in a state or territory of our own.

*** If white America will not grant us the reparatory land and supplies, we should be free from hindrance to raise the capital needed and have the opportunity to purchase land and equipment at a fair price. ***

We, the undersigned, know that the above plan is the best and only answer to the problem between the two people.
